Reasons for Allowance

- **Claim 4** specifies a disk cartridge, which requires:

"...wherein the recesses in the side wall of the frame are a slot extending along a longitudinal direction of the side wall, and the elastic engagement pieces are inserted in the slot from a tip end side of the slot and are engaged with the slot."

These features, in combination with the other features of Claim 4, are not anticipated by, nor made obvious over, the prior art of record.

- **Claim 5** specifies a disk cartridge, which requires:

"...wherein the elastic engagement pieces slide on the side walls of the frame along longitudinal directions of the side walls and are engaged with the recesses."

These features, in combination with the other features of Claim 5, are not anticipated by, nor made obvious over, the prior art of record.
